Quality Style Comfort Craftsmanship Power Fun Efficiency Safety

Freedom Privacy Value Versatility Convenience Reliability

The Plateau is built on the Dodge Sprinter chassis and is powered by a Mercedes Benz 2.7 litre turbo diesel engine, making this the most fuel-efficient motorhome available today. With the Mercedes Benz Electronic Stability program and Acceleration Skid Control, you can be assured that you are driving one of the safest motorhomes on the road.

*Celebrating . . .
Dodge Plateau*

Plateau kitchen with cherry maple cabinets

Swing out 17" LCD T.V. with cabinet

With a kitchen counter top spanning over seven feet (with extensions) every camp cook will be envious. A Dometic microwave is located just above the Dometic three cubic foot three-way refrigerator, which is conveniently located at waist level. The stainless steel fridge front smartly coordinates with the stainless steel sink and two burner LP stove. You'll find ample storage for everything you need in the multitude of drawers and cupboards. The 17" LCD T.V. conveniently swings out so it can be viewed from the front.

Celebrating . . . Excellence

Leather six way adjustable seat

Plateau-TD twin beds

Plateau bathroom

When sitting behind the wheel, the Mercedes Benz Electronic Stability Program technology assists the driver in extreme situations with a combination of traction control, anti-lock braking and yaw control to provide enhanced driver control in all weather conditions. This advanced computer system compares the vehicle's actual course with the driver's steering input. If they differ, it reduces engine torque and/or modulates individual brakes as required to correct the situation. Acceleration Skid Control helps to maximize traction by applying the brakes to a wheel as soon as it begins to spin in low traction conditions.

The Plateau private bathroom is the largest in the Pleasure-Way line up. This separate bathroom, which is a feature usually found in larger motorhomes, showcases a Thetford flush toilet, shower, medicine cabinet, vanity with sink and storage and a 110-volt plug.

Plateau queen bed

Optional third seat

Plateau-TS with ottomans

One clear advantage of the Plateau is the layout of the sleeping quarters. By situating the sleeping area in the rear of the coach, the inconvenience of splitting the kitchen and bathroom facilities is avoided. In mid-coach sleeping situations, when you need to get up in the middle of the night, you may need to crawl over the bed to use the washroom and crawl over it again to get a drink of water. It is impossible to perform these feats without either disturbing your partner or getting quite a workout! With the Plateau, you can be assured that everything you need is right in front of you. The Plateau offers two choices of rear sleeping arrangements. The TD floorplan features a dinette by day and the choice of two single beds or a queen-size bed by night. The TS offers a power sofa with two three-point seat belts plus a center lap belt. With a push of a button, the sofa lays flat and combined with the two ottomans, gives you either two single beds or one queen-size bed. An optional third seat is available, which folds down to create a single bed.

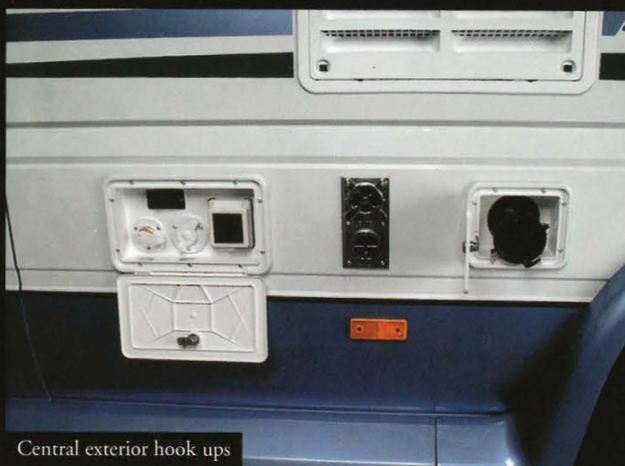

Exterior storage

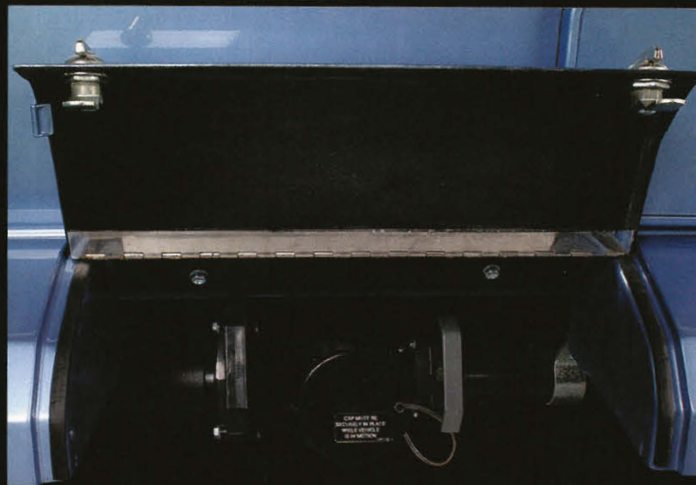

Plateau-TD interior storage

Standard exterior shower

Central exterior hook ups

Easy access sewer hook up

Exterior Colors

Choose between Anniversary Silver, Sand, Blue and Sage. All fiberglass is painted instead of gel coated for longer durability.

From the moment you cast your eyes on the Ford Excel by Pleasure-Way, you'll know you've found the right Van Motorhome for you. At Pleasure-Way, we combine the versatility and freedom of driving a van with all the comforts and conveniences of your own home. Our commitment to quality and safety, as well as our dedication to intricate finishing, flawless hand-craftsmanship and contemporary color schemes culminates in one of the most popular class "B" motorhomes on the market today.

*Celebrating . . .
Ford Excel Wide Body*

Ford Excel private bathroom

Ford Excel-RD kitchen

Ford Excel front swiveled seats

At Pleasure-Way, we strive to ensure that your home-away-from-home is stocked with every possible convenience. Whether you are fixing a snack or preparing a gourmet meal, you will appreciate your fully equipped kitchen. All floorplans include a Dometic three cubic foot three-way refrigerator, stainless steel sink with a single lever faucet, Shurflo demand water system, microwave oven, stainless steel two burner stove and ample cupboards and drawers for all your kitchen necessities.

Whether you are traveling down the road or entertaining friends, your privacy is guaranteed when you close the bathroom door behind you. Pleasure-Way's private bathroom, a feature usually found in larger motorhomes, showcases a Thetford flush toilet, a sit-down shower, a medicine cabinet, a vanity with sink and storage and a 110-volt plug. Long gone are the days of brushing your teeth in the kitchen sink.

Celebrating . . . Quality

Ford Excel-TS & TD kitchen

Ford Excel-TD dinette

Ford Excel-TD twin beds

Instead of using pre-fabricated cabinet modules, Pleasure-Way builds all the coach cabinetry from the inside, one piece at a time. This skillful handcrafted approach is reflected in the tight fitting cabinetry which provides a rattle-free ride. In eliminating the passenger-side floor to ceiling wall partition, Pleasure-Way has successfully redefined the openness of the Class B Motorhome.

Ford Excel-RD double bed

Ford Excel-TS power sofa with ottomans

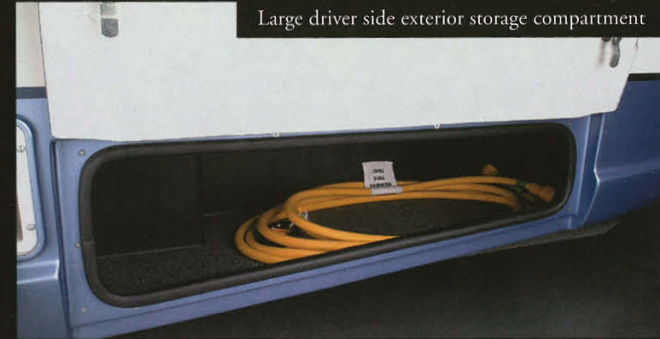

The Ford Excel is available in three floorplans. The TD, TS and RD all share the same great features while providing you with a choice of rear sleeping arrangements. The TD offers you flexibility and choice with the option of having two single beds or a king-size bed. The TS has the same sleeping arrangements as the TD, but the addition of the electric sofa provides the added benefit of two rear three-point seat belts. The RD offers a tri-fold electric sofa which effortlessly lays down into a full 54" double bed, as well as supplying additional storage below the TV and in the kitchen.

Electric sofas are steel-framed with attached cushions, and two three-point seat belts. Three-point seat belts are far superior to conventional lap belts and ensure your safety and the safety of those traveling with you. With a push of the button the sofa conveniently lays flat – making the bed has never been easier!

The Pleasure-Way Lexor, built on the Chevrolet 3500 Express Chassis, offers the comfort, fuel efficiency and reliability that Chevrolet has come to be known for. This chassis features a 9,600 pound gross vehicle weight and a fuel efficient 6 Litre V8 Vortec engine that delivers rock solid performance. You will thoroughly enjoy the comfort, safety and handling offered by the 155-inch wheelbase, whether you are touring the long interstates or just travelling across town.

*Celebrating . . .
Chevrolet Lexor*

Lexor-TS with ottomans

Lexor-TD & TS kitchen

Lexor large wardrobe

Space is everything! At Pleasure-Way, our goal is to make the best use of available space. During the production process, we eliminate one of the passenger side swing out doors in order to maximize the size of the kitchen working area. In our cleverly designed kitchen, the stove cover doubles as a slide out counter extension giving you the maximum counter space available. A Dometic three-way three cubic foot refrigerator, a two burner stainless steel LP stove, a microwave oven, a stainless steel sink with single lever faucet and a Shurflo demand water system provide everything you need. A second counter top flip-up extension is also available in the TS and TD model.

Celebrating . . . Craftsmanship

Lexor bathroom with vanity & sink

Lexor bathroom with shelving

Lexor king-size bed

At Pleasure-Way, we strive to always provide you with the freedom of choice and flexibility. The Lexor model supplies you with a multitude of options that will exceed your expectations of owning a Class B van motorhome. The Lexor offers a spacious bathroom with a Thetford flush toilet, a vanity with a second sink and storage, a medicine cabinet with mirror, a 110-volt receptacle and a stand up aisle shower or a private dressing area. For a leisurely shower, simply open the two privacy doors, set the removable shower pan in place, pull the shower curtain around you and enjoy the comfort and convenience of your stand up aisle shower. The removable shower pan results in a quick clean up instead of moping up a permanent in-floor shower pan that you walk on all day. For additional storage, the Lexor offers an optional shelving unit that replaces the vanity.

The Chevrolet Lexor offers three floorplans. The TD, TS and RD all share the same great features but provide you with a choice of rear sleeping arrangements. The TD model offers you the flexibility of choosing between two single beds and a king-size bed. The TS model offers the same bed options as the TD model with the added feature and benefits of a rear electric sofa bed that comes with two three-point seat belts enabling additional passengers to safely travel with you. The RD model offers a tri-fold electric sofa bed that opens into a full 54" X 72" bed with the push of a button. The RD also comes with two three-point seat belts and additional storage below the TV and in the kitchen area.

Lexor-RD double bed with swing out 15" LCD TV/DVD/CD player

Lexor-TD twin beds

The emphasis on comfort and convenience is reflected throughout the coach. In the rear living quarters, a Samsung 15" LCD flat screen with a DVD / CD / MP3 player and amplified theatre sound package conveniently swings out so you can view the TV from the front of the coach, while working in the kitchen or while relaxing in the back. Skilled craftsmanship and innovative planning has enabled Pleasure-Way to eliminate the passenger-side floor to ceiling wall partition, resulting in a very open floor plan with an unobstructed view from front to back. In addition, the auto ignition water heater comes with bypass valves for easy winterizing. The monitor panel enables you to quickly read the levels of your fresh, grey, black water holding tanks and the charge level or your coach battery. A handy 12-volt disconnect switch ensures your coach battery never runs down when you are storing your Pleasure-Way for extended periods of time.

Easy to Access Spare Tire
By mounting the spare tire on the rear door, you gain more valuable interior storage.
